

Mini HDD Equipment

EasyDrill Limited is the only company (world-wide) specialising in designing and building Directional Drills as attachments, via a quick hitch, for mini excavators. The EasyDrill FD10G horizontal directional drill is preferred by drillers for installing underground services such as fibre optic broadband, gas, power and other services because of its efficiency, cost effectiveness and versatility. Designed as an attachment via a quick hitch for mini excavators, the EasyDrill has amazing and unrivalled thrust and pull back power for a drill of its size.

- Pit / Surface Launched
- Quick Hitch Attachment
- Small & Robust
- Finance Available

Specifications

Specifications:					
Thrust	8,000 lbs		3,628 kgs		
Pull Back	10,500 lbs		4,764 kgs		
Rotary Torque	1,225 ft/lbs		1660 Nm		
Spindle Speed	0 - 110 rpm		0 - 110 rpm		
Drilling Fluid (pressure)	0 - 500 psi		0 - 31 bar		
Drilling Fluid Flow	0 - 13 gpm		0 - 40 lpm		
Drill Fluid Tank Capacity	80 gallon		300 litres		
Drill Rods (shoulder to shoulder)	36.6 "		93 cm		
Hydraulic Requirements:					
Oil Flow	16 - 21 gpm	60 - 80 lpm	Oil Pressure	2500 psi	200 bar
