

Roddie Basement Buddy

The Roddie Basement Buddy horizontal directional drill is preferred by drillers for installing underground services such as fibre optic broadband, gas, power and other services because of its efficiency, cost effectiveness and versatility. Designed as an attachment via a quick hitch for mini excavators, the Roddie has amazing and unrivalled thrust and pull back power for a drill of its size.

- Pit / Surface Launched
- Quick Hitch Attachment
- Small & Robust
- Finance Available

Specifications

Specifications:					
Thrust		6,000 lbs		2,722 kgs	
Pull Back		6,000lbs		2,722 kgs	
Rotary Torque		1,225 ft. lbs		978 Nm	
Spindle Speed		0 - 150 rpm		0 - 150 rpm	
Drilling Fluid (pressure)		0 - 500 psi		0 - 31 bar	
Drilling Fluid Flow		0 - 13 gpm		0 - 40 lpm	
Drill Fluid Tank Capacity		80 gallon		300 litres	
Drill Rods (shoulder to shoulder)		36.6 "		93 cm	
Hydraulic Requirements:					
Oil Flow	16 - 21 gpm	60 - 80 lpm	Oil Pressure	2500 psi	200 bar
